10/17/2019

I am glad to endorse the efforts of Safety First to provide Emergency Medical Services (EMS) to the residents of Newark, particularly in the West Ward. Safety First's uses EMS strategies that are new to our area. Most notably the use of an EMS motorcycle in their function as emergency responders. This type of initiative is evidence of their commitment to providing quicker quality prehospital services to our residents.

As a Safety Training and Service company, Safety First doesn't only provides direct care through EMS services. They also provide safety training services and safety education materials to help prevent and prepare our residents for potential emergency situations. Their services are valuable to our community, and the safety techniques that they teach, like CPR and lifeguarding, may very well save someone's life someday. I am glad to have Safety First as a member of our West Ward community.

Sincerely,

Councilman Joseph A. McCallum Jr.
